## PROFESSIONAL HISTORY

### Back-End Developer

Money Money Invest | August 2021- currently

Working in the credit engine squad,
I design and develop solutions to improve the loan flow using Elixir with Phoenix framework.

### Full Stack Developer

Micks Brasil | December 2020 - August 2021

- Mobile development with React Native
- Integration with Restfull API's
- Rest API's with Node.js
- Process automation and integrations

- iTecnico:
    Application made with React Native that helps field technicians to make adjustments in connection and customer registration.
- Micksell:
    Mobile and Web platform for tracking routes and auditing approaches made by external vendors in real time.

### Python Developer

HH Drones | July 2019 - January 2020

I worked on the development of software capable of providing drones with greater autonomy in carrying out agricultural tasks such as providing useful information for good pasture management.

## EDUCATION

### Instituto Federal Baiano

Systems Analysis and Development Degree | June 2018 - Currently

- Web and mobile development, Databases and Information Security are my strengths in the course.
